

# NATURE KAKIS

Join the Nature Kakis Network and discover or start a Nature Kakis chapter in your own neighbourhood! Organise and lead a variety of programmes to encourage greater appreciation and community stewardship for our City in Nature, with the support from partners, grassroots organisations and agencies including People's Association and National Parks Board.

Nature Kakis can enjoy various capacity building programmes, training and knowledge sharing opportunities, while building their networks and forging relationships with like-minded individuals.

**Follow for the latest buzz!**
